

# Gifting an App (for teachers)

## Gifting An App to the Campus Account

If a user wants to quickly add an app to their device(s) without having to wait for the district purchase procedures, they can elect to personally purchase copies of the app and gift them to the campus account. Each device requires their own app, so if a user wants the app on four devices, they will have to gift the app four times. *NOTE: items can only be gifted using a credit card or PayPal; not from iTunes gift cards.*

### Select the App

Find the app and click on the arrow to the right of the app price. Select the option to "Gift This App".

### Gift the App

Elect to send the gift via email. The sender should enter their name in the first box. Enter the campus name for the recipient, and the campus iTunes email (get this from the librarian). Click Continue.

## Verify the Gift

Check the order to see if the information is correct. If everything looks correct, click on Buy Gift. *NOTE that the purchaser will pay tax and that apps can only be gifted by having a credit card or PayPal account associated with the purchaser's iTunes account. Even if there are funds available from an iTunes gift card, you cannot use gift card funds to purchase a "gift."*

## Gift Again
